EDUCATION PROJECT (OCEANFOUNDATION) -353

Respected Philanthropist,

OCEAN FOUNDATION aims to build and nurture a community of thinking, compassionate world citizens, who are committed to living with responsibility, learning with enthusiasm and balancing a strong work ethos with a sense of play. To this end the organization works with schools, government organization to develop programs which encourage people across the world.

Every child deserves education. But the fact is that enrollment of students in primary schools is very low. Even if they do enroll the dropout rate is very high. About 40% students don't continue their studies beyond 5th standard, out of which 66% are girls. In this situation **OCEAN FOUNDATION** comes into action, running schools for such dropouts through sustained efforts to bring them back into the education fold. **OCEAN FOUNDATION** strives to educate the underprivileged section of the society through formal and non-formal education.

Apart from that, **OCEAN FOUNDATION** also runs an '**Education on Wheels**' project in order to make education available to the poor at their doorstep. As the name suggests, this program has a well-equipped bus with computers, television and other education related accessories to provide opportunities to those children who are deprived of any form of education. The project has been innovative in its approach by providing multi-grade

teaching in which the children of different ages and levels of learning are taught by a single teacher who uses special methods and techniques to make learning enjoyable. **OCEAN FOUNDATION** also imparts technical skills through vocational training institutes, increasing their ability to secure a job and helping India to be a truly developed country. You can also help us in providing education. **Step ahead and get counted!**

Our organization, (**OCEAN FOUNDATION**) has started with a few new projects for under privilege children. We provide education to these children in order to give them a bright future by getting your support. We have adopted (106) under privilege children and (46) handicap children for the project.
